SPOT WORKS FOR YOUR SHEET METAL SHOP

Many of our customers fabricate their own rectangular duct. SPOT stands ready to quote and fabricate for those Sheet Metal Shops to help meet the following challenges:

CONSTRUCTION SCHEDULE DEMANDS - In times of peak demand SPOT can fabricate and deliver square duct to help you better meet the expectations of your customer.

SPACE CONSTRAINTS - Let SPOT help you solve storage problems by outsourcing your square duct fabrication. We can handle fabrication, storage, and delivery to your jobsite.

SPECIALTY MATERIALS AND LINERS - SPOT keep stainless, aluminum, PVC, and anti-microbial steel in stock so that you do not have to. SPOT also has access to any liner or insulation your project might require - from fiberglass to closed cell.

LABOR PAINS - Outsourced fabrication allows you to shift shop labor to the field for quicker installation, to deal with skilled labor shortage, or interruptions caused by sickness.

EQUIPMENT REPAIR - Depend on SPOT if your coil-line is down for maintenance or repair.

OVERSIZED DUCT - Large duct is our specialty, we are glad to quote just the parts of your project, that you do not want to fabricate yourself, due to their oversized dimensions.

WELDED DUCT - SPOT has skilled welders in place to make quick work of your fully welded duct requirements.

Quoting

Our Team of Estimators can quote bills of material or compute full job take-offs on Bid Day.

Manufacturing

SPOT manufactures duct in our shop located in Fort Worth, Texas. Each custom job is produced with quality and efficiency.

Delivery

SPOT's Shipping Department, strategically plans and communicates duct delivery for every job.

ABOUT US

SPOT has been America's Sheet Metal Source Since 1981. We are not a contractor. We are a fabshop that helps contractors be successful by providing high quality commercial ductwork at competitive prices. We are proud of our vital role in the construction industry and would greatly appreciate the opportunity to partner with you on your next commercial duct job. Shop tours available upon request.
